

# Perfectly Pennsylvania

## Historic Town Markers

**Saturday, June 23, 7:30 pm**  
**in the Blacksmith Shop.**

At one time, uniquely shaped Keystone Markers, with their ornate poles and brilliant blue and gold keystones, once graced the entrances to the vast majority of Pennsylvania's towns, villages, creeks, rivers, and trails. In the few places where they survive, they define and reflect a character that is purely local, but perfectly Pennsylvania. Today, the Keystone Marker Trust is working to preserve the remaining markers, and to document their legacy. Join Jack Graham for a program on these pieces of our past..
